Y'all, y'all, y'all, y'all, y'all
Oh.. whoo whoo... uh-huh

All dressed up you're good to go
Checkin your style from head to toe (that's right)
Hooked up and natural
You're feelin' beautiful

9 times out of 10 you know
Late night club like a video with the hot stuff - top stuff -
we got stuff, oh oh

What a night (night) so far (far)
Pullin' up curb side in your car (your car)
What a sight (sight) you are (are)
Think I know somewhere we can park
After dark

System up with the top down
Got the city on lockdown
Drive by in the low ride
Hands high when we fly by

System up with the top down
Got the city on lockdown
Drive by in the low ride
Hands high when we fly by

Girl it's time to let you know
I'm down if you wanna go
We can take it nice and slow
We got until tomorrow

UK style UK flow
We got you hot like Whoa!
With the hot stuff - top stuff - we got stuff

What a night (night) so far (far)
Pullin up curb side in your car (your car)
What a sight (sight) you are (are)
Think I know somewhere we can park
After dark

System up with the top down
Got the city on lockdown
Drive by in the low ride (low ride)
Hands high when we fly by (hands high)

System up with the top down (top down)
Got the city on lockdown (lockdown)
Drive by in the low ride
Hands high when we fly by (fly by, fly by, fly by, fly by)

Yo yo yo
Throw your hands in the sky, wave em from side to side
Let me see you shake body all at the same time
Throw your hands in the sky, wave em from side to side
Let me see you shake your body all at the same time

What a night so far
Pullin up curb side in your car
What a sight you are
Think I know somewhere we can park
After dark

System up with the top down
Got the city on lockdown
Drive by in the low ride
Hands high when we fly by (hands high)

System up with the top down (top down)
Got the city on lockdown (lockdown)
Drive by in the low ride (yeah)
Hands high when we fly by (after dark)

System up with the top down
Got the city on lockdown
Drive by in the low ride
Hands high when we fly by (we fly by)

System up with the top down
Got the city on lockdown
Drive by in the low ride
Hands high when we fly by
