### "I Can Remember"

Visit "[I Can Remember](#)" on MotoLyrics.com

I can remember when we first met  
we really had some times  
when the success started to kick in  
life turned into a mess

Why can't we still be friends?  
Why judge me for what I am?  
Can we go back again?  
I'm still the same man.

You figured out really who I am  
you'll bet your life on that  
why can't you see me for what I am  
where human don't forget that (that)

Why can't we still be friends?  
Why judge me for what I am?  
Can we go back again?  
I'm still the same man.

Stand around, don't follow me around  
playing me like a clown  
facing life not real (not real)  
life not real (not real)  
life not real (not real)

Why can't we still be friends?  
Why judge me for what I am?  
Can we go back again?  
I'm still the same man.

SAME man!! [4x]
