"I Will Survive"

Visit "[I Will Survive](#)" on MotoLyrics.com

I will survive - whatever they will do
I break the golden rules, I will survive

I'm alone - on Highway 9
The sun was hot - killing my time, oh no
Baby, I'll never let you go, oh no no no

Hundred lightyears, you're away
Tell me your dreams, make my day, oh no
Baby I'll never let you go, oh no no no

I will survive - whatever they will do
I break the golden rules for you
'Cause I'll be never living without your love

I will survive - the wind will fly me home
I'll never, baby, be alone
'Cause I'll be never living without your love

Oh 90 miles, endless of fears
Loneliness and thousand tears, oh no
Baby I'll never let you go, oh no no no

I was the black sheep of my family
A dreamer lost his destiny, oh no
Oh baby I'll never let you go, oh no no no
