My love is cruel as the night
She steals the sun, and shuts out the light
All of my colors, they turn to blue
Win or lose

She does it slow dancing
Slow dancing
She does it slow...dancing
All night long

Scarlet eyes and a see-through heart
She saw me coming right from the start
She picked me up, but had me down on my knees
Just a' beggin' her, beggin' her please

Take me slow dancing
Slow dancing
She took me slow...dancing
All night long

And I don't know a man
Search for himself in his lover's eyes
No I don't know why a man
Sees the truth but needs the lies

My love is restless as the wind
She moves like a shadow across my skin
She left with my conscience, I don't want it back
It just gets in the way

If you wanna go slow dancing
Slow dancing
She took me slow...dancing
All night long

Slow...dancing
Slow...dancing
Slow..
