Can you, can you, can you, come on
Yeah, that's right, yeah yeah
Can you, can you, come on
Can you check me out
Yeah, uh, uh huh
Come on

There's something in the way you move
Everybody wants you
To me you are, a shining star
Baby what do I do
To make you see, you're the one for me
Baby, won't you realize

Girl we could be doin' it, doin' it, doin' it
Doin' it all night long
Makin' it, makin' it
Makin' sweet love

It's the way you move your body
Supersexually, you are the one for me
So baby move your body
A little closer to me, so everybody can see
There's no doubt that you're what I want
Everything that I need 'cause you do me supersexually

Come over here, so what's your name?
Everybody's watching
I'll buy the drinks, i'll play the game
But only if it's worth it
I guess you heard it all before
But baby I ain't telling lies

Girl, we could be doin' it, doin' it, doin' it
Doin' it all night long
We'll be makin' it, makin' it
Makin' sweet love

It's the way you move your body
Supersexually, you are the one for me
So baby, move your body
A little closer to me, so everybody can see

There's no doubt that you're what I want
Everything that I need 'cause you do me supersexually

To me girls like you don't come everyday
I like to have some fun baby, what do ya say?

All night long
Supersexually

Girl, we could be doin' it, doin' it, doin' it
Doin' it all night long
Makin' it, makin' it
Makin' sweet love

It's the way you move your body
Supersexually, you are the one for me
So baby, move your body
A little closer to me, so everybody can see
There's no doubt that you're what I want
Everything that I need 'cause you do me supersexually

It's the way you move your body
Supersexually, you are the one for me
So baby, move your body
A little closer to me, so everybody can see
There's no doubt that you're what I want
Everything that I need 'cause you do me supersexually

It's the way you move your body
Supersexually, you are the one for me
So baby move your body
A little closer to me, so everybody can see
There's no doubt that you're what I want
Everything that I need
