Thats so Raven (future)
Thats so Raven (future)
Thats so Raven (future)
Thats so Raven (lets go)

[Raven]

If you could gaze into the future
Your mind and life would be a breez
(life is a breez)
See the trouble from a distance
But its not that easy (oh no)
I try to save the situation
Then i end up misbehaving (oh oh oh)

[Orlando]

Hey now say now bout to put it down
Come on and take a ride with Ra now
And the future looks great now
and eveythings gonna change now (lets rock)

[Raven]

(lets go) yeah (go Ra) (lets go)
Thats so Raven its the future i can see
Thats so Raven so mysterious to me

[Repeat out]
