### "The Catcus That Found The Beat"

Visit ["The Catcus That Found The Beat"](#) on MotoLyrics.com

Somebody said, "can you find your way to God?"  
I said I've found my way in bi-bap-ba-doo-bap,  
that's how I found my way to God.

Walkin' down the street sayin' "hi, hello",  
but how long do you think I can go before  
I start having to sing you the blues da-ba-doo-bap?

Tappin' to the beat singin' Heidi-ho,  
but how long do you think I can go before  
I start having to get in the groove da-ba-doo-bap?

'Cause I know that there will never be a doubt in me,  
'cause mamma told me it was meant to be.  
I found my baby in the bi-bap-ba-doo-bap,  
that's how I found my way to God.

So you're sitting in your seats and tapping your toes,  
but how long do you think you can hold before  
you start having to join in my groove da-ba-doo-bap?

And there's a beat in my feet as  
I tumble the seas in the waves of ecstasy,  
and can you feel the vibe does it move you inside  
like the way it does to me?

'Cause I know that there will always be a light for me,  
because I've found my place in history.  
I've found my baby in the bi-bap-da-doo-bap,

That's how I found my way to God,  
That's how I found my way to God,  
That's how I found my way to G
