### "Leave My Willie Alone"

I got a nice sized collection I'll admit it  
Yea the night I showed it to her I'll never forget it  
One shot of Whiskey River and she was gone, long  
gone  
She couldn't leave my Willie alone

I played her everything from Material Girl  
All of my Skynyrd and Merle  
The Beatles and the Rolling Stones  
Yea tried like hell to hook her on the Man in Black  
She wasn't havin any of that  
And she kept goin back  
To the only thing that turned her on  
She wouldn't leave my Willie alone

Well the honeymoon sure did wear off fast  
We went from huggy, kissy, to fightin like dogs and  
cats  
Well bad got worse when she went to cleanin out my  
home, sweet home  
And she wouldn't leave my Willie alone

I tried to give her everything from Material Girl  
All of my Skynyrd and Merle  
The Beatles and the Rolling Stones  
Yea tried like hell to hook her on the Man in Black  
She wasn't havin any of that  
And she keeps comin back  
To the o-o-only thing that turns her on  
She won't leave my Willie alone

Yea I'm afraid it's been this way my whole life long  
They won't leave my Willie alone  
No they won't
