"Broken Down"

Visit "[Broken Down](#)" on MotoLyrics.com

Everything was wonderful
When you were in my life
Yesterday we were on a roll, baby
Then we end up in a fight
And everywhere I look, I see problems
Where I never seen before
The cracks in the sidewalk
When I get home my key don't even, fit the door

The moon don't shine
(It's broken down)
The clouds are crying
(They're broken down)
The car won't start
(It's broken down)
And this shattered heart
(It's broken down)
My whole damn world
(It's broken down)
Since you left me girl
(I've broken down)

Stepped downside into the night
I took a walk around the block
I stopped by the Church that I used to go inside
But even that door was locked
So I came back home, feeling so alone
A light had burned out in a hall
My TV is broke, said I'm out of smoke
There's no one I can even call

The moon don't shine
(It's broken down)
The clouds are crying
(They're broken down)
The car won't start
(It's broken down)
And this shattered heart
(It's broken down)
My whole damn world
(It's broken down)
Since you left me girl

(I've broken down)
Said my whole damn world
(It's broken down)
Since you left me girl
(I've broken down)

Till you come back, come back to me
I'm gonna be broken down
Till you come back, come back to me
I'm gonna be broken down
(It's broken down)
(It's broken down)
(It's broken down)
(It's broken down)
(It's broken down)
(It's broken down)
(It's broken down)

The moon don't shine
(It's broken down)
The clouds are crying
(They're broken down)
The car won't start
(It's broken down)
And this shattered heart
(It's broken down)
I mean my whole damn world
(It's broken down)
Since you left me girl
(I've broken down)

I mean my whole damn world
(It's broken down)
Since you left me girl
(I've broken down)
My whole damn world
(It's broken down)
(It's broken down)
Since you left me girl
(It's broken down)
(It's broken down)
(It's broken down)
