(feat. J.J. Cale)

Well I feel like I'm running down a dead end road  
Yes I feel like I'm running down a dead end road  
I need some someone to tell me which way I ought to  
go

Say good by to the morning hello weekend time  
Say good bye to the morning down the road I am flying  
If I look way beyond me I'll be getting way behind

I can't seem to catch up distance keeps falling away  
I can't seem to catch up distance keeps falling away  
Makes no difference where I go dead end road every  
way

I feel like I'm running down a dead end road  
Well like I'm running down a dead end road.  
I need some one to tell me which way I ought to go
