Treat me wrong, treat me right  
Do me now, baby  
Tell me lies  
But oh, hold me tight

An' save your goodbyes for the morning light  
Lord, I don't wanna be lonely tonight

Come and say hello  
Come and say goodbye  
Sure good enough to see you  
Apart when it's time to go

Don't say ends but, but, but please don't say  
Lord, I don't wanna be lonely tonight

Gonna whale down your heart  
I'm gonna do as you please  
Gonna do as you please, girl  
But you ain't gonna see me getting down on my knees

'Cos my heart has been divided, oh  
And my souls been excited  
You've been turning my world upside down  
More baby

Come and say hello  
Come and say goodbye  
Sure good enough to see you  
Apart when it's time to go

Don't say ends but, but, but please don't say  
Lord, I don't wanna be lonely tonight, oh babe  
I don't wanna be lonely tonight  
I don't wanna be lonely tonight  
I don't wanna be lonely tonight
