

Eric Clapton

"Everybody Ought to Make a Change"

Visit "[Everybody Ought to Make a Change](#)" on MotoLyrics.com

Well, change in the weather, change in the sea
Come back, baby, you'll find a change in me
Everybody, they ought to change sometime

Yeah, because sooner or later
We have to go out in that lonesome ground

Well, I changed suits, I changed shirts
I changed, baby, just to get shed of the dirt
Everybody, we ought to change sometime

Yeah, because sooner or later
We're going out in that lonesome ground

Well, I changed, honey, I changed money
I changed, people, just to keep from being funny
Everybody, they ought to change sometime

Yeah, because sooner or later
We're going out in that lonesome ground

Well, change in the ocean, change in the sea
Come back, baby, you'll find a change in me
Everybody, we ought to change sometime

Yeah, because sooner or later
We're goin' out in that lonesome ground, well
