Verse 1:

Can you feel a wind blowing  
Got me talking to myself  
One more day, one more truth, got to find out where  
Feel the blow of the river taking me there  
Good Lord only get you so far,  
Then you got to help yourself  
I don't need no reason, reason to hang my head

Chorus:

Cause I gotta get over  
Get on over to the good side  
Lord I gotta get over  
Get over, you get a lil' closer  
I gotta get over  
Getting closer to the good side  
Gotta get over  
Getting over, over

Verse 2:

I've been breaking like the waves upon the sand  
You know I need some fortitude, gonna keep it close at  
hand  
And I gotta shake it if I'm gonna break it on down the  
line  
Ain't nobody can help me if I stay helpless all the time

Chorus:

I gotta get over  
Get on over to the good side  
Gotta get over  
Help me get a little closer  
I gotta get over  
Getting closer to the good side  
Lord I gotta get over,  
Getting over, over
