

Eric Clapton "Second Nature"

Visit "[Second Nature](#)" on MotoLyrics.com

You walk into the room, you know what's on my mind
You know just how to reach me, baby, without even
trying
Don't need no one to tell me, this is leading to
'Cause something deep inside of me is dragging me to
you

So roll the dice, baby, see what the future brings
Sure feel like a right time, you to spread your wings
Ain't no one but you, baby, ever stopped me in my
tracks
Once this thing gets rolling darling, well there ain't no
turning back

Second nature
To look at what we've found
Second nature
You know we're heaven bound
No need to think about it
You know we're safe and sound
Second nature
For you to come around

So take me to your heart baby, and lead me to your
door
Take me in your arms baby, never leave me any more
Ain't no one like you baby, to stop me in my tracks
All I know for this old heart, well I ain't no turning back

Second nature
(Nature, nature)
They look at what we've found
The second nature
(Nature, nature)
They know we're heaven bound
No need to think about it
(Nature, nature)
They know we're safe and sound
The second nature
(Nature, nature)
You to come around

(And he come's, oh easy baby)
(And he come's, oh easy baby)
(And he come's, oh easy baby)
You must have heard my call
(And he come's, oh easy baby)
Like rain to a waterfall
(Rain to a waterfall)

The second nature
(Nature, nature)
They look at what we've found
Second nature
(Nature, nature)
They know we're heaven bound
No need to think about it
(Nature, nature)
They know we're safe and sound
Second nature
(Nature,nature)
You to come around

Second nature
(Nature, nature)
Just look at what we've found
Second nature
(Nature, nature)
You know we're heaven bound
No need to think about it
(Nature, nature)
You know we're safe and sound
Second nature
