And we wont
Make a sound
Just sweaty palms
And heavy breathing now
As were getting closer
Were holding shoulders
Lay you down and I'll take over
Your body heat has reached a new degree
Are you going to be my fantasy

If our skin was like a wave
Hands are surfing all around the bay
The taste of your kiss
This feeling of bliss
Look at our clothes; torn in pieces
You and me,
Were one with destiny
So tonight will you become my fantasy

My Fantasy
Now move your body
And take my breath away
In Ecstasy

I Feel like I'm a world away
From where I used to be
The feeling of your lips, I love the way you use your
hips

When you your moving up and down
The sweetness of your kiss, and oh my god I'm going
to miss this
When its over and you're gone
Your finger tips are moving, the music's got us
grooving
Its happening right now
Embrace me with your feelings
Cause were not slowing down

The taste of your kiss
This feeling of bliss
Look at our clothes; torn in pieces

You and me,
Are one with destiny
Oh tonight you have become my fantasy

My Fantasy
Now move your body
And take my breath away
In Ecstasy

Took my breath away
The night that you became a fantasy
Oh
The night that you became a fantasy
