It started out, just hanging out
Who would've thought we'd fall so easily
it's the glister in your eyes, that's blinding me

So ow long would it go on, hiding what we feel and
tucking it away.
Cuz i know you cant betray and it's a pain
but still i want you/

Chorus:
And i love the way you smile
now that we've opened up the door.
Through the smoke i reach your fire
where i burn to come back for more.

So here we go
Were starting slow
From short hello-goodbyes to talking on the phone
So you know I wont let go so easily
and you know how it goes

Chorus
ohh, oh oh oh. woah oh oh oh (x2)
yea i burn for more
yea i burn for more
yea i burn..

chorus(x2)

where i burn to come back for more
Where i burn to come back for more
