And I feel you as I breathe, like a warmthend-winter breeze,
And it comforts me for a while.

Take a good look in my mirror, just to see how you appear.
And to see your truthful smile.

And now, it's alright, take your time,
cuz there's nothing waiting in line.
Come around, and kill the emptiness inside

Chorus:
I've got everything I need
all but you to set me free
I'm on top of the world, and still waiting
Until I know you're there with me.

And it's all I feel inside,
just a hole thats filled with lies.
And sometimes it's hard to deal.
And its hard to stop this pretending,
when the moments never sending.
And I'm wishing you were real.

And now, it's alright, take youre time.
Because there's nothing waiting in line
come around and kill the emptiness inside.

Chorusx2

and now it's alright, take youre time
cuz there's nothing waiting in line
come around, and kill the emptiness inside

Chorus

I've got everything I need
all but you to set me free (set me free)
I'm on top of the world, and still waiting
Until i know you're there with me (you're there with me)
you're There with me

you're there with me.
you're there with me.
hmmmm..
