Whenever I see a line I gotta cross it
You can take that stop sign mister and toss it
Put me in a nine to five, I won't come back alive
Show me rules not taken and I'll take 'em
I didn't make the rules, I just break 'em.

Say it can't be done and I'll do it
You can tell me that it's useless and I'll use it
And you can listen to outter advice
And you wont get no place nice
If I don't know the moves I'll just fake 'em
I didn't make the rules, I just break 'em.

Chorus:

Let me go and get in it
Let me roll no limit
Yea, they give me some dice and i dont think twice
I'll shake 'em
I didn't make the rules, I just break 'em.

--- Instrumental ---

Try to shut me down and I'll fire up
I won't be pigeonholed by some ole' hire up
I just do what I gotta do
Only way around is straight on through
And if you think I'll ever change, you're mistaken
I didn't make the rules, I just break 'em.

Chorus:

Let me go and get in it
Let me roll no limit
Well, they give me some dice I don't think twice I'll
shake 'em
I didn't make the rules, baby, I just break 'em.

I didn't make the rules, I just break 'em.

Oooooohhhhhh...
