Throw me overboard  
To lighten your load  
Let me drown  
So you can take the high road  
Throw me overboard  
Cause you're playing your role  
Easier to place the blame  
Instead of fixing the hole  
And you can tell me  
It was a necessity  
It was out of your hands  
That I'll never understand  
And you can tell me  
It was an emergency  
That you didn't have a voice  
But I know it was your choice  
And we all have things we can live without  
And that makes me your Jettison

Throw me overboard  
When the water's getting rough  
When the going gets too tough  
I guess you've just had enough  
Throw me overboard  
But you said you wouldn't bail  
When the weather's getting bad  
It's just easier to sail  
And you could say that you  
That you don't know what to do  
That you'd stay if you could  
But we know you never would  
And you could that that you  
That you always kinda knew  
That you'd wanna work through it  
But we know you can't commit  
And we all have things we can live without  
And that makes me your Jettison

When you don't care enough to stick around  
When you're just trying to search for higher ground  
You're afraid  
Dropping anchor makes you fall apart

You've got it made  
The end of me becomes your brand new start  
And we all have things we can live without  
And that makes me your... Jettison

Throw me overboard  
To help you stay afloat  
You will risk the crew  
As long as you can save the boat  
Throw me overboard  
Cause you're playing your role  
Easier to place the blame
