Infatuation gripped again I can make myself so sick  
with lonely plans  
And I watch the sky miles out and act out scenes  
That only ever take place in my dreams

Could you just be my imaginary friend?  
Well I wait on for this  
And it stings me like some kiss that's meant for  
someone else  
And leaves me questioning myself  
On several lonely Saturdays  
Like some slug who's trail has lost it's way

Feel this pounding in my head  
Like there's someone beneath the floorboards bashing  
on my bed  
Like a vice that's chained around my echo chamber  
heart  
I stop and stutter so noiselessly defeated  
Are you one of them?

It's a barbed wire star kiss  
When your hand 's clamped up when you think your  
mighty like a rose  
But freeze can't even feel your toes  
A little kid from far within who doesn't know where to  
begin  
Hey blue sky black pearl it's sad and sick and true  
That all the lies you told your father you'll properly feed  
me too  
And I just don't know where to start and I won't begin to  
try  
This is my resignation I was destined to fly and die

Feel like I'm dribbling in the wind and it's raining spit  
again

I'll never die for you like two ships passing in the night  
Your on my mind but your out of my sight  
I'll stop trying for you, I never lied for you  
Nothing's started so nothings through  
It's over, left no clues
