I'd set your heart on fire but arson is no way
To make a love burn brighter.
(when you saw me, on that first day
Said I'd blossom under your care).

Always thought that the devil was the only one
Who knew the ins and outs of the ways of love,
So I sold off my heart to see how this would end,
Now I can't move an inch for fear it will begin.
(wrap me up tight inside your wing
Is it safe now, is it safe to breathe?)

You come in between me and the darkness,
Please don't ever leave.
(I force my eyes open, and now who has changed?
You look different, so different today)

Holding your eyes in the hardest stare
Running around like you wanted me there
Lookin' at me like I'm the hottest in town
Then turnin's your back when you're movin' around
I ain't gonna listen to you no more
Breakin' outta this place throwin' open the door
Use me up just to fan the flame
But you'll be sorry as I'm walkin' away
(backwards, forwards going out of my mind,
Spinning way off time
Fire to water, baby's putting me out)

You're the truest light I've known,
But someday I'll learn I don't need your fuel to burn.
(I'm the one who decides who I am
I'm the one who will she'd this old skin)

Always thought that hell was the only place
Hot enough to melt our heart into a locked embrace.
There's something so safe about a lack of air
The only way to make sure that you'll always be there
(I force my eyes open, and now who has changed?
I feel different, so different today)

Did you really change your mind?
Could this be your only crime?
