Stay away from the haunted heart  
Stay away from the haunted heart  
You swore to yourself that you'd make a new start  
But you just love the demon with the poison dart  
There's nothing left to see  
Turn out the light  
There's nothing left to see  
Turn out the light  
Stay away from the burning house  
Stay away from the burning house  
Once you get inside you'll never get out  
We'll die together before the flames go out  
Did it burn you baby make you scream and shout?  
Did it burn you baby make you scream and shout?  
Build it up just to tear it down  
There's nothing left but ashes of doubt  
There's nothing left to see  
Turn out the light  
There's nothing left to see  
Turn out the light  
Put it in the ground sing a funeral song  
Put it in the ground sing a funeral song  
Have the neighbors over and they'll sing along  
Lowering the coffin on a love gone wrong  
Hey there now what did you bury today?  
Hey there nwo what did you bury today?  
I buried the hope I wanted to stay  
Nothing says 'forever' like our very own grave  
There's nothing left to see  
Turn out the light  
There's nothing left to see  
Turn out the light  
There's nothing left of me  
Turn out the light  
No one here but me  
Turn out the light
