A mystery girl anything but typical
Never been a member of the beautiful
Plays the clown but she can keep it really real
And it makes her feel sad
Talk to me, fall on me
Saving her grace in a secret place

Coming in and out of focus
Is who you are - Janie won't open?
Wasted love longing for her
Busted heart- Janie won't open
Janie won't open

What a mess another social accident
She'll confess the burden tastes like medicine

But I know
She can take it way too far
And it's so bizarre
Dissident, different
Saving her grace in a secret place

Coming in and out of focus
Is who you are - Janie won't open?
Broken doll slowly choking
In the crowd - Janie won't open
Wasted love falling for her
Busted heart- Janie won't open
Free if she could only own it
Cry out loud - but Janie won't open
Janie won't open
