Tapping: (not official, only by ear)

They want a postive answer
Definite now
No more of this nonsense
All of that sound
Sit down you make me nervous
Going out
But i dream of ???
So let me go

Breaking out
Breaking up
Forming now
Growing now

This time was meant for today
Then for a week
The ladies in between stations
Little bit wierd
Sit down you make me nervous
Going out
They're ready for me at the ????

Breaking out
Breaking up
Forming now
Growing...

It's a thin line baby but you wanna go
It's hard time honey but you can't say no

Repeat
(you wanted in through the back door back door
You live your life like it's a metaphor metaphor
So what's the secret of you what's the spirit what's spirit
Im getting out of this ???
