You are the song
Singing in my heart
A melody in harmonies
Familiar from the start

You are the sweet in my honey
You are the red in the rose
You are the song
That's a singing in my heart
Singing in my heart

You are my companion
Walking by my side
I know we'll be the best of friends
In me you can confide.

You are the sweet in my honey
You are the red in the rose
You are the song
Thats a singing in my heart
Singing in my heart
