God I don't know where to begin  
I'm so lost I can't even pretend  
like the girl that I see  
right in front of me  
don't have control  
she's like a friend to my heart  
key to my future lover of soul

crazy thing I didn't even know her name  
who she was and where she came from  
but she passed me this passion  
pushed back my action like we couldn't deal  
said something bout timing  
paths not alining but I need her still

left my heart with lovely stranger  
one way street headed for danger  
closed my eyes but still can't fade her  
she's been there for years  
I've been heart messin wit lesser  
even though I do no better  
I spend my nights writing love letters  
landing on Def Ears

So I ask  
can she be  
a simple friend also made for me  
is it a phase  
just passing by  
or could she be missing pieces in my life

God I ask u for clarity  
there's an answer theres gotta be  
if it was just a crush or infactuation I'd understand  
but she reaches for me  
uses words when we speak  
like I was her man

left me heart with lovely stranger
