Girl so tight and her love sci-fi, yeah  
The way you walk, the way you walk, I love to watch your every step  
The way you talk, make it hard to breathe, uh  
The way you sing, when you're in bed and you're undressed  
No wedding ring, leave it to the dream, uh

Pre-chorus:

She's a knock-out ten point model  
And they all talk about her  
Genie in a bottle, found all my wishes with this girl  
Something about you I can't resist  
Say the word, and I'll take the lead, uh

Chorus:

The way you look, I ain't never seen before  
You rock my world, cover girl  
And you're above all the girls I've ever known  
You rock my world, cover girl

Girl so tight and her love sci-fi, yeah  
Gotta be science fiction, uh  
Girl so tight and her love sci-fi, yeah  
Gotta be science fiction, uh

Verse 2:

The way you smile, I just forget about the rest  
And when you're out, you're always surrounded, uh  
The way I'm falling, it makes me think that I am obsessed  
A dirty mind you let me talk about it, uh

Pre-chorus:

She's a knock-out ten point model  
And they all talk about her  
Genie in a bottle, found all my wishes with this girl  
Something about you I can't resist  
Say the words, and I'll keep you grounded, uh

Chorus:

The way you look, I ain't never seen before  
You rock my world, cover girl  
And you're above all the girls I've ever known  
You rock my world, cover girl

Something so unreal, this girl got sex appeal  
And I don't need to feel she's science fiction, science fiction, yeah  
And girl I must confess, I love sá<sup>1</sup>—ecial effects  
So we should get undressed, she's science fiction, science fiction, yeah

Girl so tight and her love sci-fi, yeah baby  
Girl so tight and her love sci-fi, yeah yeah ow

Chorus:

The way you look, the way you look, I ain't never seen before  
You rock my world, cover girl, the way you look  
And you're above all the girls I've ever known  
You rock my world, cover girl

Chorus:

The way you look, I ain't never seen before  
You rock my world, cover girl  
And you're above all the girls I've ever known  
You rock my world, cover girl

Girl so tight and her love sci-fi  
Gotta be science fiction, uh  
Girl so tight and her love sci-fi, yeah  
Gotta be science fiction, uh
