I've got a glitch in my head  
Hook me up with your lips  
Heal my body with your kiss  
You play tricks with my head  
But you're everything that's fitting me

I've got a world to show you  
I wanna know you  
But time is moving way to fast  
We gotta stop, we're speeding  
Freeze this feeling  
And maybe we could slow it down, yeah

**Chorus**

I feel the love from your heart is hitting me  
I wanna stay to be yours for eternity  
Don't let the feelings go away so rapidly  
The clocks will never surround us  
We could be timeless  
We could be timeless, yeah  
We could be timeless  
We could be timeless, yeah

You're so beautiful  
I can't help myself, I stare  
Love is filling up the air  
So incredible  
I can only see myself with you

We gotta stop, we're speeding  
Freeze this feeling  
Maybe we could slow it down  
I've got a world to show you  
I wanna know you  
But time is moving way to fast, yeah

## Chorus

This is timeless, this is timeless  
So maybe we should slow it down  
I feel the love from your heart is hitting me  
I wanna stay to be yours for eternity  
Don't let the feelings go away so rapidly  
The clocks will never surround us

We could be timeless  
We could be timeless, yeah  
We could be timeless  
We could be timeless, yeah

## Chorus

We could be timeless
