We're winning
We're winning
We're winning
We're winning
We're winning
We're winning

Wanna stand on the edge
Wanna feel that I'm here right now
Wanna scream from the top of my lungs
Wanna show no doubt

I've been down for the count
I've been tasting the dirt too long
Yeah, but you take me high from my low
Now I won't come down, down, down, down, down

Calling out for another round
Won't stop now, can you hear the crowd?
We're winning ground
We're winning ground

Calling out, let the love surround
To the stars 'cause I'm heaven bound
We're winning ground
We're winning ground

We're winning
We're winning
We're winning
We're winning ground
We're winning
We're winning
We're winning

Put your hands in the air
Be prepared for a brand new day
I was left, I was right
Made mistakes but I found my ways

I've been down for the count

I've been tasting the dirt too long
Yeah, but you take me high from my low
Now I'm here to stay, to stay

Calling out for another round
Won't stop now, can you hear the crowd?
We're winning ground
We're winning ground

Calling out, let the love surround
To the stars 'cause I'm heaven bound
We're winning ground
We're winning ground

We're winning
We're winning
We're winning
We're winning ground
We're winning
We're winning
We're winning

Look at the stars, let's get together
Look at the stars, let's get together
Look at the stars, let's get together
Look at the stars, let's get together
Look at the stars, let's get together
Look at the stars, let's get together
Look at the stars, let's get together
Look at the stars, let's get together

Calling out for another round
Won't stop now, can you hear the crowd?
We're winning ground
We're winning ground

Calling out, let the love surround
To the stars 'cause I'm heaven bound
We're winning ground
We're winning ground

I'm calling now to the stars
Calling down for another round
Winning ground
