You always ask me
Those words i say
And telling me what it means to me

Every single day
You always act this way
For how many times i told you
I love you for this is all i know

Come to me and hold me
And you will see
The love i give
For you still hold the key

Every single day
You always act this way
For how many times i told you
I love you for this is all i know

[Chorus:]
I'll never go far away from you
Even the sky will tell you
That i need you so
For this is all i know
I'll never go far away from you

Come to me and hold me
And you will see
The love i give
For you still hold the key

Every single day
You always act this way
For how many times i told you
I love you for this is all i know

[Chorus:]

I'll never go far away from you
Even the sky will tell you
That i need you so
For this is all i know
I'll never go far away from you

Come to me and hold me
And you will see
The love I gaved for you still hold the key

Every single day you always at this way
For how many times I told you
I IOVE YOU for this is all I know

[Chorus:] [2X]

I'll never go far away from you
Even the sky will tell you
That i need you so
For this is all i know
I'll never go far away from you

****INSTRUMENTAL****

I'll never go (I'll never go....)
I'll never go (never go...)
Far away from you
