Another lonely lonely night
Starting to wander
How can you dare having fear in your eyes
Tell me how how how
How can you carry the weight of your lies
Tell me how how how
Well I'm down again
Crawling back to my hows and whys
How come you're scared when I give you a smile
Tell me how how how
That's what generates my howl
Motivates my howl
Liberates my howl
Activates my howl
Accentuates my howl Aggravates my howl
Here is where to get off
But you create my howl
Originate my howl
Stimulate my howl
How can you talk about God all the time
Tell me how how how
How do you think he'll forgive each of your crimes
Tell me how how how
Here I go again
Creeping along to my hows and whys

You talk about love but you revel in slime
This is why I howl
You won't dominate my howl
Captivate my howl
Domesticate my howl
Penetrate my howl
Moderate my howl
Terminate my howl
Here is where to get off
But you create my howl
Originate my howl
Stimulate my howl
You won't dominate my howl
Manipulate my howl
Asphyxiate my howl
Decimate my howl

Eradicate my howl
Terminate my howl
Here is where to get off
For the only aim of love
For the blossom of love
In the Holy name of love
For the reign of love
I will celebrate my howl
Everyday I'll howl
No one will quell my howl
Like a prayer I'll howl
Everyday I'll howl
Until the end I'll howl
