'Call me back'

Call me back, I can't take the waiting and I won't relax
I don't really like it when you tell me that
I don't need the leaving and the coming back
Call me and tell me you need me, when I already know

Chorus

I couldn't waste another minute with you
I wouldn't see another city if you don't want me to, my
darling
When everyone's been changing your mind, my lovely
I couldn't waste another minute with you

Leave me now, I don't need a reason and I won't come
back
you don't really like it when I tell you that
I don't care as a matter of fact
phone me and tell me you need me, when I already
know

Chorus

Phone me and figure me out
Leave me, leave me out of this

Chorus
