'En Mexico'

All my problems I don't have to have them
I just drink, I just drink too much
With all the cities I've been sleeping in well
I don't sleep, I don't sleep enough

Chorus

There's a place you can go where she won't say no
Somewhere in Mexico, Somewhere in Mexico

As I make my way down town I wonder
If I could dance, dance my blues away
All the people they keep laughing at me
But they all know that I'm the king of this town

Chorus

All my problems I don't have to have them
I just drink, I just drink too much
With all the cities I've been sleeping in well
I don't sleep, I don't sleep enough

Chorus
