'every little star'

You can do what you want, You can't walk out the door  
And if you leave me behind, You'll be back for more

Chorus

I know that it's not easy but you love me you won't leave  
me  
Every little star, Every little star it starts somewhere

You can say what you want, You can leave me tonight  
What you wanted to change, All the things you waste

Chorus

Chorus

( you think it's easy but you just don't know)  
(you tell me something but you take it slow)  
(you think it's easy just to let you go)  
(you tell me something but I didn't know where)
