'Flood and flames'

In a field of flood and flames
In the happiness you crave
And the cigarette and just wont go out
Did you happen to me or did you happen to leave?

Chorus

In the past we fall in time, heaven knows I'm on your
side
But I thought you'd cry, the night you said you had to
say goodbye
Heaven knows I'm not alright

In a maze of give and take
In the love you re-create
It just won't go back the way it was
When I met you that night, you sparkled inside

Chorus

Take me with you don't believe me
I won't be there where you are

In a field of flood and flames
Did you happen to me or did you happen to leave?
