So what you never had enough  
Goodbye, you never say good night  
You say "I don't want to be with you"  
I see "you better take it back or leave"  
If you go first, I'm chasing after you

I don't want to say I don't belong, but I don't  
I don't want to tell you that you're wrong, but you're  
Wrong  
If you go, I go, I don't want to say I don't belong

So what I wanted way too much  
Good night, it's better than goodbye  
You, you and all the friends you choose  
So I'll wait until you tell me what to do

And the lights will make us feel something we were  
Never meant to feel  
On another night, another life, we'll cross the bridge  
We burned
