(Dickie Peterson, Bruce Stephens, & Rewind)

Ooohh!

Here it comes, baby!

New resistance falls beyond all light

Camulator going way out of sight

Like a diamond always shining on so bright.

Big noise, big noise tonight

Big noise, big noise tonight

Yeh!

All the streetlights just like soldiers stand

Celebrate the boundary regions of the land

Take the sound to a foreign land.

Big noise, big noise tonight

There's a big noise, big noise tonight

Yeh!

The sun goes down

The sun goes down

The sun goes down

Tumble under big noise, big noise, big noise tonight

Big noise tonight!

Ooh, here it comes baby!

New resistance falls beyond all light

Camulator running way out of sight

Like a diamond always shining on so bright.

Big noise, big noise tonight

Big noise, big noise tonight

Big noise, big noise tonight

There's a big noise, big noise toniiiiight!
