(Jimi Hendrix)  
(Well lookit here, baby)  
Said there's a red house over yonder  
That's where my-my baby stays.  
Said there's-there's a red house over yonder, baby  
Lord that's where my-my sugar sweetie stays  
Lord knows I-I ain't seen my little darling  
Been ninety-nine and one half days  
(Sometimes that ain't long enough baby, I know. Not tonight!).  
I said now wait a minute something's wrong  
Said this 'ol key won't unlock this here door  
I said now wait a minute, wait a minute, wait a minute,  
wait a minute, wait a minute baby  
Wait a minute something's wrong  
My key won't unlock this here door (Whew! Oh, no!)  
Said I got me a bad, bad feeling  
My sugar sweetie, she just don't live here no more  
(So I'm makin' on down the road, see if I can by me some booty!).  
Said I believe I go beyonder  
I go beyonder way back up on over that 'ol hill  
Said I believe, I believe, I believe, I believe  
I believe, babe  
Babe I go beyonder way back over that big 'ol hill (Ow! Oh yeah!)  
Said if my girl don't love me  
I know her sister will  
(And I don't know that she might not play a thing or two).
