

## Eric Tagg "Just Another Dream"

Visit "[Just Another Dream](#)" on [MotoLyrics.com](https://MotoLyrics.com)

v.1

Here we are - making wishes upon a star  
Riding up & down the boulevard like true hearts in love  
But will it be more than just midnight rhapsody  
Is it bigger than you or me sent from heaven above?  
And my heart, you know - would sure be torn apart, you  
know  
If love that's there from the start should go - just  
another dream

v.2

And yesterday I walked you home from the Milky Way  
Searched in vain for some words to say, but love said it  
all  
But reality always gets the best of me  
I'm to the brink of insanity  
Don't fade away, just like my other fantasies

v.3

The break of dawn came before our loves flame was  
gone  
As you see it's still burnin' on like a fire ball
