Word up, Erick Sermon an' Keith Murray
Kickin' it to the beat

Respect my views on this day an' era
Keep your eyes upon me an' not the sparrow of
Barettas
I'm fly than any bird of this earth
For what it be, my style is butter like Worth

I freak the beat like I'm lost in the twilight
A zone with no phone, lookin' over parasites
I pack the house like Woodstock when I rock
A three day event of me droppin' the illest shit

From here to New Jerz, back to Brooklyn an' Queens
The Uptown to Bronx River, I still deliver
The off the wall for y'all
Rearranged, Cameo-type strange, pumpin' through
your veins

What your mommy do if you're not ready to die like
Biggie?
I'ma keep jammin' like Ziggy
I got the arrows wiped down like Funkmaster Flex
Sway an' Tech an' Premier an' we in here

It's on like that an' everybody's welcome
You are welcome
It's on like that an' everybody's welcome
You are welcome

It's on like that an' everybody's welcome
You are welcome
It's on like that an' everybody's welcome
You are

Now, it's on like that, once again, it's gettin' hot
Now, it's time to blow up the spot
For my niggaz out there on the block gettin' money
Playas whose hustlin', doin' their thing

But me, I've lounged without the stone

Do it for my peeps, take it to the streets
All day, everyday, I sets the mood
Pile a bell of 'Aye' with new attitudes

I change not for the worst, but for the better
An' be a trend-setter an' bring the best ever
Yeah, teach me for the president
So I can bring the vibes through your residence

The ghetto blast, the green eyed rapper slash producer
An' O.J. with the juice
Y'all know me, it's the E R I C K
So enjoy the day an' peace to Marvin Gaye

It's on like that an' everybody's welcome
You are welcome
It's on like that an' everybody's welcome
You are welcome

It's on like that an' everybody's welcome
You are welcome
It's on like that an' everybody's welcome
You are

Let's groove back an' forth like Aaliyah
If you don't got the vibe, then I wouldn't want to be ya
I threw it like a rap attack from New York to Hackensack
Kiss myself an' jump back, surprise like a Crackerjack

The eye can bring the smiles without Chanice
An' make enemies call truce, or even peace
Funk Lord, fights back again without the force
Or blue sky Chewbacca, R2D2 an' the crew

The miracle worker, God praise him, praise him
All of them ready for the funk, you feel like you want
like
Whatever you requested an' you suggested
That I 'Bring the pain' like Method

It's nothin' nice 'cause I'm down for whatever
Me an' my Baretta, me an' my Baretta
Goddammit, don't leave your dog stranded
Who? Yeah, the Green Eyed Bandit

It's on like that an' everybody's welcome
You are welcome
It's on like that an' everybody's welcome
You are welcome

It's on like that an' everybody's welcome

You are welcome
It's on like that an' everybody's welcome
You are

It's on like that an' everybody's welcome
You are welcome
It's on like that an' everybody's welcome
You are welcome

It's on like that
You are welcome, you are
