On my mind
In your life again
Another weightless lie
I do remember how
It seemed like we'd passen
Only to refine
And charge you

I'll do it all again
Somebody hit the brakes
Lonely will I be when I'm around you
I've seen it all before
Can someone please remind me?
It's my curse
I remember

Am I blind?
In your life again
They were falling down around me
I do remember now
All the girls that I did find
Season's best
And I discharged you

I'll do it all again
Somebody hit the brakes
Lonely will I be when I'm around you
I've seen it all before
Can someone please remind me?
It's my curse
I remember

You're like something
Waiting in the dark
The only drug
That keep the nightmares behind me
I'm strange and cold
Hoping for someone to find me
I'm tired and wasted alone
