I told her to stay awake,  
didn't know the games she were playing.  
The patch she cut for me,  
didn't know how it would be  
Oh, am I weary, is it only in my head?  
oh how I wish that she would stay

CHORUS:

She, she's taking me higher  
I only desire  
she's everything I am  
She, she hurts me like fire  
but I want the wire  
she's everything I am

I wonder, was I too late  
trying to set everything straight  
I wonder what would I do  
trying to put my mind off of you  
Oh, am I weary, is it only in my head?  
Oh, how I wish that she would stay

CHORUS

Am I wary, is it only in my head?

how I wish.....

She, she's taking me higher  
I only desire  
she's everything I am  
She, she hurts me like fire  
but I want the wire  
she's everything I am  
I am..
