Hush now, hear the sound  
they wait around, the grand prize  
is gone.

They wanted you, to fade away

They know it's better when all is done  
they cant see wider, you know its not what it seems  
let yourself higher

they say, we dont belong here  
open your eyes  
echos, we shall not linger  
open your eyes

Hush now, take your time  
it's not been found  
what you built is gone  
get ready now to start a  
brand new day.

You know it's better when all is done  
they cant see wider, listen, its not what it seems  
let yourself higher

they say, we dont belong here  
open your eyes  
echos.. we shall not linger  
open your eyes

you know its not what it seems  
now let yourself higher

cause they say, we dont belong here  
open your eyes  
echos.. we shall not linger  
open your eyes

open your eyes  
open your eyes
