I'm still waiting

Every word you say is like enclear
But that's not what I wanna hear
Your touch cuts me like a knife
Your kiss turns day to night

Can't you see that I've been waiting
Spent all my time
trying to be
somebody
Hoping you will see

That I've been waiting
for all the world to see
What you remedy
What you've done to me
'Caus I'm still waiting

Every hour we made was like
I thought my words were crystal-clear
Your touch cuts me like a knife
Your kiss turns day to night

Can't you see that I've been waiting
Spend all my time
trying to be
somebody
Hoping you will see

That I've been waiting
for all the world to see
What you remedy
What you've done to me
'Caus I'm still waiting

What you remedy
What you've done to me

'Caus I'm still waiting
'Caus I'm still waiting

(Waiting, waiting)
Spend all my time
trying to be
somebody
Hoping you will see

That I've been waiting
for all the world to see
What you remedy
What you've done to me
'Caus I'm still waiting

That I've been waiting
Spend all my time trying to be
somebody
For all the world to see
What you remedy
What you've done to me
'Caus I'm still waiting

(waiting, waiting)
