Fighting with life
You battled like a true survivor
Somebody who has who earned the right
To not be easy
Someone else
Is only gonna weigh you down
But how can all that loneliness
Be all that easy
I am here and I'm safe
So maybe you don't have to fight today, yeah

Stay with me
You got nothing to lose but a little time
Outside of your own walls
So stay with me
I'll be the smile on the face
you will see in the morning
And that's all
It's your call but I want you to stay
You're not alone
You're not the only casualty
Love hasn't been that fair to me
But I am willing

To lay it out
Like I'm doing now with you
I know that you can shoot me down

But I am willing
You are here and you're safe
So maybe you can put the past away, yeah
Stay with me
You got nothing to lose but a little time
Outside of your own walls
So stay with me
I'll be the smile on the face
you will see in the morning
And that's all
It's your call but I want you to stay

I can't tell you

You will love me
But we'll stand a chance
If you...

Stay with me
You got nothing to lose but a little time
Outside of your own walls
Your own walls
So stay with me
I'll be the smile on the face
you will see in the morning
And that's all

Stay with me
You got nothing to lose but a little time
Outside of your own walls
So stay with me
I'll be the smile on the face
you will see in the morning
And that's all
It's your call but I want you to stay
