"Take Me On"

I'm tired of walking alone
Dealing with things on my own
There's always something

And I'm tired of playing a part
Keeping control of my heart
I'm feeling nothing so

Love yes love
Here I am I'm fearless I'm young
Love yes love take me on

I'm tired of walking these streets
Everyday stuck on repeat
Just give me something

And I'm playing it out in my mind
Finally coming alive
I'm going in so

Love yes love
Here I am I'm fearless I'm young
Love yes love take me on

Take me on
Don't be long
Take me on

Love yes love
Here I am I'm fearless I'm young
Love yes love
So come on I'm fearless I'm young
Love yes love take me on

Love yes love take me on
