We were a little more than children
In the days when we first met
And the moment that I saw you
Girl I never will forget
Went from friends to so much deeper
Then the years are rolling by
but what we pushed away
Our hearts could never deny
Now we've seen the hard times
And the others come and go
But I'm not afraid
Cause I know, Baby
You and I were set in stone
Written in the sky
Where the legends never fall
There'll be you and I
Timeless
Never gonna be a part of some fading trend
It's a love without and end
It's always be Priceless
Timeless to me
This life can be a battle
Sometimes it seems like an endless climb
But the love of someone like you
Just made it all worthwhile
If I had the chance tomorrow
I would do it all again
Without changing a thing
It's all a part of who I am
We survived the fallouts
Now we're standing in our prime
Guess we'll be around for a while, yeah
You and I were set in stone
Written in the sky
Where the legends never fall
There'll be you and I
Timeless
Never gonna be a part of some fading trend
It's a love without and end
It's always be timeless to me

Yeah, when I look into your eyes it is magic
I feel so alive
If I ever were in doubt I forget it
I can touch the sky
All we really need is time
you and I'll write
Sweet history
of how love should be
Timeless
You and me
Timeless
Never gonna be a part of some fading trend
It's a love without an end
It's always be timeless
And it's always gotta be to me
You and I were set in stone
Written in the sky
Where the legends never fall
There'll be you and I
Timeless
Never gonna be a part of some fading trend
It's a love without an end
It's always be Priceless
Timeless to me
Timeless to me
