I was wide awake in a sleeping town  
Was infected by its void  
So I left that life back into 2K4  
Couldn't take it anymore  
While the small town boys were busy being bored  
When you're pushed around, when you're on the  
ground  
You got to learn your lesson fast  
You just keep your mouth shut, hold your head down  
And pray that it won't last  
All the things I was fighting to keep out

Always found a shortcut back in  
Breaking plans that I was making  
You could tell when I was faking  
But its ok

Chorus:  
Are you leaving?  
Are you leaving me now?  
Are you leaving?  
Are you leaving me now?  
If you leave you got to leave me now  
Are you leaving me now?  
Are you leaving me now?  
Are you telling me this is the last time?  
If you leave you got to leave me now

When I left this town I was beaten down  
I was ready to just give in  
I was a small town boy with big ideas  
But nostalgia always win  
And all this time you were always on my mind

So I'm driving by your house tonight  
No one lives there anymore  
It's so hard to imagine I once belonged in this complete  
unknown  
And all the things we were fighting to keep out

Somehow found a shortcut back in

You could see when I was faking  
Now my heart is slowly breaking  
But it's ok

[chorus]

Don't leave me  
This is the last time  
Don't leave me  
Can't believe this is the last time

Are you leaving?  
Are you leaving me now?  
Are you leaving?  
Are you leaving me now?

If you leave you got to leave me now  
Are you telling me this is the last time?  
Are you leaving?  
Are you leaving me now?  
And can't you see I am down on my knees now?

If you leave you got to leave me now  
And can't you see I am down on my knees now? x2
