I pray that just this once, I will get exactly what I want
You say you'll leave tomorrow say you'll stay here
And take me to your hideout one more time
Stay here now. Stay here,
'cause then when I fall then the downhills will all be
worth it,
to get that high.
One last ride.

Just give me this last fix, the shadowmen is in, I'm
feelin', sick
'Cause your love is sweet, your love is sweet
So give me what I need

Just say you'll leave tomorrow, say you'll stay here
And take me to your hideout one more time
Stay here now. Stay here,
'cause then when I fall then the downhills will all be
worth it,
to get that high
One last ride

If you give me something to remember you by, I'll be
satisfied
Just a soothing kiss will give me comfort for a, while
And I pray that just this once, it will be exactly what I
want

Stay here and take me to your hideout one more time
Stay here now. Stay here
'cause then when I fall then the downhills will all be
worth it,
to get that high
One last ride
One last ride
