Sometimes when it rains  
I just feel so safe  
The world a see through veil  
Of quiet

Sometimes late at night  
Under slow black skies  
I can hear your heartbeat  
For miles

Do you want to see what I saw  
Know what I know  
About the thing we used to call love  
You said that you would give me it all  
As I recall  
You gave me nothing at all  
I can see the black holes collide  
In the divide  
You said that you would stand by my side  
Do you want to see what I saw  
Know what I know  
Nothing at all  
It means nothing at all

Sunshine like a knife  
Cuts the shadows of our lives  
It makes me feel so lonely  
I could die

And sometimes  
When it's raining  
You let me hold you tight  
I like it when it rains  
That's why

Do you want to see what I saw  
Know what I know  
About the thing we used to call love  
You said that you would give me it all  
As I recall  
You gave me nothing at all

I can see the black holes collide  
In the divide  
You said that you would stand by my side  
Do you want to see what I saw  
Know what I know  
Nothing at all

Rain and shine  
Like the choice  
Was ever mine  
I live my life in black  
And white...

Do you want to see what I saw  
Know what I know  
About the thing we used to call love  
You said that you would give me it all  
As I recall  
You gave me nothing at all  
I can see the black holes collide  
In the divide  
You said that you would stand by my side  
Do you want to see what I saw  
Know what I know  
Nothing at all  
It means nothing at all
